You'll receive a temporary password in your mail.

The mail will seem like (if you are using MAC the .eml file may be displayed in the body of the email):

#### Messaggio di posta certificata

Open the postacert.eml file and read the content. If you have troubles viewing the system mail please read it with a program like Outlook.

Insert the temporary password received via email (pay attention if you copy-paste to do not copy any additional blank space in the password field) and set the new password.
